MINISTRY OF EDUCATION.

THE EDUCATION SECRETARY,
ELIMU MT. ELGON.

RE: RECOMMENDATION LETTER

On behalf of the entire education fraternity in Kwanza District and on behalf of the Ministry of Education, we highly appreciate the immense support, co-operation and contribution towards academic process in the District.

First and foremost we commend you most sincerely for the immense support exhibited by the financial and material support received by schools. You facilitated the provision of infrastructure in schools in the region such as Kimwondo, Naifarm and Andersen Primary Schools among others. We are so grateful for the Early Child Development facility at Chepchoina Primary which you initiated and completed well among others. Your projects have become rich centres for excellence for others within the region to come and benchmark, such institutions include Chepchoina E.C.D. Centre and Andersen Primary School.

Besides, your organization has successfully carried out capacity building exercise through academic visits and sensitization sessions for officers, parents, teachers, students and pupils of this region. We are grateful for this contribution and partnership aimed at improving the academic performance of the region.

Your employment subsidy and even payment of teacher's salary in some understaffed schools in the region is highly commended. This gesture combined with workshops and individual tours to school have greatly changed the attitude of the people of this region and improved the quality of teachers and quality of educational services in the region. The reasonable payment given to teachers in the area has gone along way in reducing the poverty index.

Similarly, the academic institution assisted and governed under the able leadership skills of your organization are the only academic centres of excellence in the District and beyond. To prove this, Andersen Primary School has excelled and led in Kenya Certificate of Primary Education since it was started. The newly started Andersen Secondary School is now excelling in both academic and curriculum activities such as hand ball and football among others. Please see academic analysis attached.

Finally, we kindly request Elimu Mt. Elgon Organization to continue partnering with us in the provision of Educational services through such services and infrastructure support. Similarly, through the organization we wish to thank the donors for their endeavour will be achieved. Lastly, we look forward to more co-operation and support for the sake of the Education of the child.

God bless Elimu Mt. Elgon.

Thank you.

Yours sincerely,

MRS. HELLEN NYANGAU
DISTRICT EDUCATION OFFICER
KWANZA DISTRICT
